

THE
PAST FOUNDATION

STEMStreaming

[PAST Foundation](#) has been virtually communicating with school districts, educators and students for over 10 years and we want to share our expertise with you. [STEMStreaming](#) is here to support virtual education and distance learning by offering a wealth of teacher and parent resources. These PAST developed resources have been used by thousands across the world.

STEMStreaming offers three types of **FREE** resources:

-  Webinars for Educators
-  Podcasts for Everyone
-  STEM Activities for School and Home

Help Us Build Our STEMStreaming Community

During the pandemic, we are encouraged to rely on our community to weather this challenge. We invite you to join our STEMStreaming Community and share your creations on social media by posting photos and videos.

-  Tag us on Facebook, Twitter or Instagram @pastfoundation
-  Use hashtags #ThisIsPAST or #DesignThinking

Interested in Additional Support?

We work collaboratively with educators, businesses and industry to co-create innovative strategies designed to provide students relevant and timely online learning opportunities through:

-  Online Courses
-  Online Workshops
-  One-On-One Coaching Support
-  Leadership Strategy Sessions
-  Online course and workshop topics include distance education, problem-based learning, design thinking, blended learning, and assessments in a virtual environment
